Ref No. SJMDC&H/160-A/2020-21

Date: 26/8/2020

The vision and mission are taken as the guiding principles while planning and creation of infrastructure and manpower training. The day today academic and support activities are planned and executed accordingly.

## Vision

- To create excellence in dental health care for global requirements in the light of technological developments.
- To develop the human resources for dental care regarding moral, ethical and social responsibilities.

## Mission

- Develop infrastructure for global excellence.
- Organize programs to make the students professionally competent, physically fit and mentally strong.
- Train faculty to enable them to train students to take interest in their self developments.
- Promote entrepreneurial qualities in dental science students for their self economic reliance.
